

FIND OUT HOW YOU COULD SAVE A LIFE

Every year, 12,000 patients are diagnosed with life-threatening blood cancers and diseases for which a blood stem cell transplant from an unrelated donor may be their only chance at a cure.

We will be hosting a Be the Match Registry drive at the upcoming Ahepa Marrow Basketball Tournament. Anyone 18-40 can join with a quick cheek swab. Patients match donors who share their ethnicity, and Greeks are extremely underrepresented on the Registry. You could be the one to save a life!
