

Be the one to save a life.

BE THE MATCHSM

My name is George Alexandrou. I am 64 years old and have been married to my wife Susan for 40 years. I was recently diagnosed with acute leukemia. I have no children or family neither in this country or Canada. I have an uncle in Athens and two cousins in London, who did not qualify as donors. The first searches for bone marrow donors proved fruitless and the existence of a donor is imperative for me if I am to go on. I hope and trust in God that one of you will be the perfect match allowing me to continue my life among you.
